### ***Allowable Subject Matter***

1. Claims 1-11 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 1 recites, inter alia, wherein calculating the reference value includes, when the target value of the output voltage is altered, monotonously and linearly changing the reference value a plurality of times at a plurality of gradients to the altered target value.

Claim 6 recites, inter alia, when the target value of the output voltage is altered, the reference calculator circuit monotonously and linearly changes the reference value a plurality of times at a plurality of gradients to the altered target value.

The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include either of the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
